

Notes from the GreenMoor Meeting with Zoe Sykiotis from Big Local

7/11/13

Present - the following board members, Abbas, David, Paul & Shabir
Plus; Zoe (Big Local), Clive (BCVS) John (BMDC), Taj (BMDC), Steve (Big Local),
Javed (CNet), Muppett (CNet).

After a round of introductions were done, Zoe asked a number of questions relating to the Community Plan in order for her to get a better picture of what future work was being proposed, these included;

- How have the local residents been in the process so far?
- How are you going to continue /sustain links in the community, particularly with sections of the community such as those from Eastern & Central Europe and the young and elderly?
- How will you continue to communicate with the community to encourage views, opinions and involvement?
- Which parts of the budget are ready to be accessed?

There was then an open discussion to address these questions, after which Zoe thanked the group for their help in answering them.

A number of questions were then fired at Zoe, these included;

- How long would it take once the budget had been approved for the money to be accessed? To which Zoe explained that there is a month turn around.
- How do you define what is additionality and what is replication? Zoe said she'd send out a document which helps define this.

There was then some lengthy discussion about clarifying the LTO's 5% and how they will be paid.

(need help here as to what was explained as I didn't manage to catch the definitive answer)
